

LTC 9316/00P Standard Pole

- ▶ Accommodates G3 AutoDomes®, AutoDome modular camera system, Unity® Domes, and TC9320 Domes
- ▶ Sturdy Steel Construction
- ▶ Max Load of 91 kg (200 lb)
- ▶ Contains Two (2) Easy Access Panels

The 16-ft LTC 9316/00P Mounting Pole is ideal for applications where the camera must be mounted high off of the ground. Its solid steel construction provides the stability and wind resistance also required. With the included mounting piece, these poles can accommodate the mount, which is used with the G3 AutoDome, AutoDome modular camera system (100, 200, 300, and 500 Series), and UnityDome Series. They also mount to the TC9320WM, which accommodates the TC9320 Series dome. The pole's maximum load is 91 kg (200 lb) and has two (2) easy access panels for simple, feed-through wiring.

Technical Specifications

Maximum Load	91 kg (200 lb)
Height	16 ft

Parts Included

Quant.	Component
1	Packet Assembly for LTC 9316/00P <ul style="list-style-type: none"> • 1 Bosch Adapter Plate • 4 3/8 x 1-in.
